Professional Summary

Motivated B.Tech Artificial Intelligence and Data Science student at Kongu Engineering College with strong foundations in Java, Data Structures and Algorithms, Web Development, and Artificial Intelligence. Experienced in startup development, funded innovation projects, and hackathons. Passionate about solving real-world problems through technology and innovation.

Education

Kongu Engineering College, Erode	2024 – 2028
B.Tech Artificial Intelligence and Data Science	CGPA: 8.70/10
Class XII (State Board)	2024
Percentage: 90%	
Class X (State Board)	2022
Percentage: 96.2%	

Technical Skills

Programming Languages	Java, Python, C
Web Technologies	HTML, CSS, JavaScript, React.js, Node.js, Express.js
Database	MongoDB, SQL
Core Concepts	Data Structures and Algorithms, OOP, Machine Learning Fundamentals
Tools	Git, GitHub, VS Code, Postman
Languages Known	Tamil, English, Hindi

Projects

Startup Project: Automatic Bagging System for Enhanced Pre-Harvest Quality in Banana Cultivation

- Developed an automated banana bagging system to improve pre-harvest fruit quality and reduce manual labor.
- Designed to protect banana bunches from sunburn, pests, fungal attacks, and environmental damage.
- Secured startup funding of approximately Rs. 75,000 (Spark Fund: Rs. 25,000 + Additional Funding: Rs. 50,000).

Advanced Flood Management System (Mini Hackathon Winner)

- Developed an intelligent flood monitoring and management solution for early warning and disaster response.
- Integrated automated alerts and data analysis to improve decision-making during flood situations.
- Won First Prize in Mini Hackathon and received a cash prize of Rs. 5,000.

AI-Based Jaundice Detection System

- Developing a low-cost healthcare device using ESP32, sensors, and AI techniques.
- Focused on early jaundice screening and accessible healthcare solutions.

Achievements

- Winner of Mini Hackathon and awarded a cash prize of Rs. 5,000.
- Received startup funding support of approximately Rs. 75,000 for the banana bagging startup project.
- Finalist in Aryabhatta Mathematics Competition.
- Active participant in coding contests, hackathons, and technical events.

Certifications

- Global Certification in Deep Learning – HCL.
- NPTEL Certification – Affective Communication.
